

Gel-Lite Cushions

GEL-LITE OPTIMUM COMFORT CUSHIONS

Feature an individual tubular designed gel bladder, providing effective pressure relief, improved distribution of weight and prevents bottoming out. Polyester topper pad for insulation and comfort. Nylon security strap with velcro closure secures cushion to wheelchair. Washable, moisture resistant, antibacterial cover and protective inner liner. 2½" H.

(E2603 - sizes up to 22" width)

(E2604 - sizes over 22" width)

GEL-LITE OPTIMUM POSITIONER CUSHION

Provide patient positioning, effective pressure reduction and maximum comfort. The contour base is of 4 grades of foam plus a 5" x 2" x 1" bladder to redistribute pressure away from the Ischials. High density polyethylene foam sides and back are raised for extra positioning support. Pommel rises 2" above the base for proper leg abduction and protective inner liner. Washable, fluid proof antibacterial cover. Nylon security strap with velcro closure.

Star Air-Cell Cushions

THE STAR PRESSURE RELIEF SYSTEM

For therapeutic applications, all Star Cushions rely on a proven Dynamic Air Flow technology that utilizes flexible, interconnected air cells. Immersing the user within the cushion, every cell reacts to support the weight by flexing in multiple directions. The cell's dynamic reaction provides additional surface for weight bearing, thereby decreasing body weight per unit area on the cushion. The resulting pressure reduction to any one part of the body allows an increased supply of blood necessary for healthy tissue maintenance and repair. All cushions are of flame resistant neoprene rubber. Top cover is 4-way stretch cotton/lycra; bottom is woven fabric coated with poly-vinyl compound.

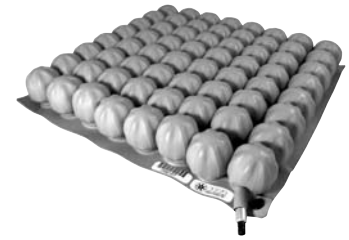

STANDARD CONTOUR – 4" CELL

Recommended for individuals who have a history of or are at risk of Ischemic Ulcers (pressure sores). Available in single, double and four valve models. (K0734 - sizes up to 22" width) (K0735 - sizes over 22" width)

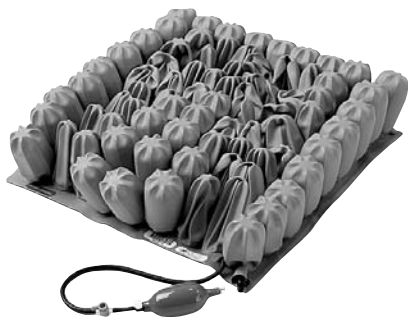

MID CONTOUR – 3" CELL

Recommended for active individuals who need a cushion height that is easier for transferring than our 4" cushion, but who also need a deeper immersion value and higher therapeutic benefit than our 2" cushion. Available in single, double and four valve models. (K0734 - sizes up to 22" width) (K0735 - sizes over 22" width)

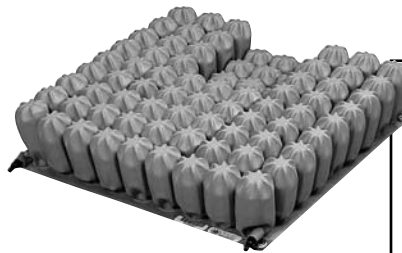

SHORT CONTOUR – 2" CELL

Recommended for sports enthusiasts and active individuals who are at a minimum risk for Ischemic Ulcers (pressure sores). Available in single, double and four valve models. A cost effective solution with greater surface flexibility. (K0734 - sizes up to 22" width) (K0735 - sizes over 22" width)

STARLOCK

A multi-celled air cushion offering postural control, comfort and pressure management. Variable air flow for greater surface flexibility. Simple adjustments for individual postural needs. "Lock-in" support for asymmetrical requirements. Isolated air cells for ultimate stability. Maintenance of skin integrity. (K0736 - sizes up to 22" width) (K0737 - sizes over 22" width)

THE CXR

This combination cushion consists of 2" cells on a 4" cell cushion. It has 2 valves (one for the 2" section and one for the 4" section). For individuals who need to minimize coccyx pressure and who are at risk for pressure sores. Choose from 16 configurations to meet specific needs. (K0736 - sizes up to 22" width) (K0737 - sizes over 22" width)

CXR 2" & 4" CELL CONFIGURATIONS

● Shaded circles represent 2" cells isolated by a separate valve chamber.
○ White circles represent 4" cells.

STARLOCK is available in 2" and 3" cell versions. Use prefix "59-SL2" for 2" cell and "59-SL3" for 3" cell when ordering.

Starmatt™ (E0373, Group 2 pending)

The Starmatt Overlay is a four section, therapeutic air adjustable mattress overlay featuring 180 air cells per section or 720 air cells in a total StarMatt system. As the individual is immersed into the StarMatt, they benefit from a high resolution, low pressure, low shear support surface that conforms to the unique contours of the body, providing the ideal environment for the healing of up to and including a Stage IV pressure ulcer.

Designed of high quality, flame resistant, latex free neoprene rubber. Mattress system fits a standard size hospital bed. Comes complete with four mattress sections, quilted top cover, carrying bag, hand pump and repair kit. 18 month limited manufacturer's warranty.

Part No. 59-SMATT1000 Size Fits standard hospital bed; 34" x 79" x 4"
