

RETRACT4 SWING-AWAY JOYSTICK ARM

The Retractable4 employs a simplicity of design that offers unmatched functionality and durability. Its full 180-degree horizontal adjustment means it can be used for both left-hand and right-hand mounting and multi-position use (straight, right offset, left offset, and fold away). Also allows vertical adjustability for the joystick controller. The easy, low-pressure retractability and positioning allows chair users to get closer to tables and desks—and in and out of the chair more easily. Adaptability for most powerchairs and joystick controllers. Easy installation and virtually no maintenance. Sleek profile for easy cleaning. Full one-year warranty. Reimbursement Code E1028.

Part No.	Description	Sugg. Retail
RETRACT4	includes one arm and one adapter <i>see list at right for arm and adapter numbers</i>	\$272.00

EXTENDED
multiple extended positions with right or left hand mounting and adjustment

RETRACTING
retracts back by folding at each joint of the arm

FOLDED
folded position by side of armrest

RETRACT4 SWING-AWAY JOYSTICK ARM

The Retractable4 consists of two components: a swing away arm (determined by the type of powerchair) and an adapter (determined by the type of joystick controller).
